

Parent Account info for 6-12 My.HRW.com Go Math!, Math in Focus (Singapore Math), Integrated Math 1-3

Greetings Parents!

We are proud to announce that we have adopted two K-8 and one high school integrated curriculum from Houghton Mifflin, each site has selected either Go Math or Math in Focus (Singapore Math) for K-8 and Integrated 1-3. As a homeschool parent, we want to provide you with the resources you desire to help support your child.

We have set up one shared account that we can provide you which will enable you to access all of the print resources online. Since this is a shared account, please protect the login information and we ask that you do not change the passwords.

If you elect to utilize one of these programs with your child, we would encourage you to follow the steps below when initially logging on. This will show you how to log in and how to get to the program's built in tutorial. You can begin exploring at any time.

The first thing you need to do is go to <https://my.hrw.com>

You will get to the initial login page that looks like this:

All Homeschool Parents will use the username: HMHomeschoolParent and password: Homeschool2015!
(make sure the H is capital and there is an exclamation point)

Once you click Log In to either program, you should then get this screen:

Now you can take the tutorial. I highly recommend this. We will have webinars in the near future, but you will get a lot out of this. Enter the tutorial, (you can always take it again if you want) by selecting the "Help Center" tab at the top and then select "Getting Started".

Please let your site leader know if you have any problems with login. They will contact me for assistance. This is exciting to have an we look forward to helping everyone provide students with the limitless support now available to us.

Thanks, Raymond
